CIRCULAR

Sub: ETP/Centage charges leviable on Accelerated Rural Water Supply Scheme (ARWSP)- Centrally sponsored.

During review of monthly accounts and other documents received from the various field officers for the months of April 2002 to September 2002, it is noticed that ETP/centage charges at different percentages are worked out and added to the net expenditure under various centrally sponsored schemes, i.e. Accelerated Rural Water Supply Programme, desert development programme, sub mission schemes, M & I units etc. A list of central assistance for various components of ARWSP is enclosed for ready reference. It will be seen from that the percentage of central assistance varies between 50% to 100% for various schemes under ARWSP.

Ministry of Rural Development Department, GOI has issued guideline on 24/8/2000 for implementation of Accelerated Rural Water Supply Scheme. According to the guide lines, GWSSB has to send utilization certificate in the prescribed form given in Annexure-III on page no.53 of the guidelines duly countersigned by the Secretary (WS) clearly mentioning that "No expenditure on departmental/centage charges/establishment costs has been met out of the ARWSP funds". In view of this, no ETP/Centage charges should be levied on different schemes sanctioned under ARWSP, DDP, Sub Missions, M&I Units etc.

All Ex. Engineers of field offices are hereby directed that no ETP/centage charges should be levied on centrally sponsored Accelerated Rural Water Supply Schemes and added to the scheme expenditure in future (from the accounts for the month of October 2002). Wherever such charges have been levied in the accounts for the months of April 2002 to September 2002 the same should be withdrawn by credit to the scheme expenditure concerned by debit to ETP income in the accounts for the months of October 2002. A certificate to this effect that the ETP charges debited in the accounts for April 2002 to September 2002 have been withdrawn should be furnished along with the monthly accounts of October 2002.

The above instructions should be followed strictly.
